HOW CARIBBEAN KIDS BUILD A  
SPARKLING CLEAN POOL BUSINESS

# Young Boss Pool Cleaning Guide

## How Caribbean Kids Build a Sparkling Clean Pool Business

1

### Why Pool Cleaning Is a Gold Mine for Caribbean Kids

Every pool needs cleaning every week. Almost nobody wants to do it themselves.

2

### Your Equipment — Under \$300 to Start

The right tools make the job professional and fast.

3

### Building Your Route and Getting Paid Every Month

Your pool route is your most valuable recurring asset.

# \$1,200+

**Per week from a route of 15 pools at \$80-\$150 each**

Year-round in warm climates · Seasonal in cold states · Caribbean homeowners are your warmest first clients

# Why Pool Cleaning Is a Gold Mine for Caribbean Kids

**Every pool needs cleaning every week. Almost nobody wants to do it themselves.**

---

There are approximately 5.7 million residential swimming pools in the United States. Caribbean homeowners in Florida, Texas, Georgia, California, and the Caribbean itself own pools at significant rates. Every pool needs weekly skimming, chemical balancing, and filter cleaning to stay safe and clear. Most homeowners do not have the time, the knowledge, or the desire to do it themselves. When you show up reliably every week and their pool stays crystal clear — they never let you go.

### 1 The numbers

Basic weekly cleaning (skimming, brushing, chemical check): \$80–\$120 per visit. Full service (skimming, brushing, vacuuming, chemical balancing, filter check): \$120–\$150 per visit. 15 clients at \$100 average per week = \$1,500 per week. Monthly recurring from 15 clients: \$6,000.

### 2 Warm climate versus cold climate

In Florida, Texas, Georgia, and California — pool season is year-round. Your income never stops. In cold states, pool season runs May through September — five strong months of consistent income. Use the winter months to book your entire next season, upgrade your equipment, and expand into indoor spa and hot tub maintenance.

# Your Equipment — Under \$300 to Start

The right tools make the job professional and fast.

---

Professional pool cleaning does not require expensive equipment to start. A basic starter kit covers 80% of all residential pool maintenance needs.

## 1 Starter equipment list

Telescoping pole (\$20-\$35) — the backbone of every pool tool. Skimmer net attachment (\$15-\$25) — removes leaves and debris from the surface. Pool brush attachment (\$15-\$20) — brushes walls and floor. Manual vacuum head and hose (\$40-\$60) — removes settled debris from the pool floor. Test strips or digital tester (\$15-\$30) — checks pH, chlorine, and alkalinity levels. Chemical starter kit (\$40-\$60) — chlorine tablets, pH increaser, pH decreaser, shock treatment. Total starter kit: \$145-\$230.

## 2 Learning chemical balancing

Pool chemistry sounds complex but it comes down to three numbers — pH (7.2-7.6 ideal), chlorine (1-3 ppm), and alkalinity (80-120 ppm). Test the water, adjust as needed, and document what you added for each client. YouTube has complete tutorials for every adjustment scenario. After five pools you will know the process instinctively.

# Building Your Route and Getting Paid Every Month

**Your pool route is your most valuable recurring asset.**

---

A pool cleaning route is one of the stickiest service businesses a young person can build. Once a homeowner finds a reliable pool cleaner who keeps their pool crystal clear, they do not switch. The service is weekly, the value is visible, and the alternative — doing it themselves — is the reason they hired you in the first place.

## 1 Getting your first five clients

Walk your neighborhood and look for pools visible over fences or through gates. Knock and introduce yourself: 'Hi, I offer professional pool cleaning at \$100 per week — I skim, brush, vacuum, and balance the chemicals. Would you like a free first clean to see how the service works?' Free first clean is your audition. If the pool looks better than it ever has, they sign up for weekly service immediately.

## 2 The monthly payment conversation

After the second or third visit: 'Most of my clients find it easier to pay monthly — I come every week and it works out to four visits at \$100, billed at the start of the month. Want me to set that up?' Monthly billing converts clients from per-visit to automatic recurring income. One text, one payment link, one less thing they have to think about. Almost everyone says yes.

#### BUILD YOUR BUSINESS WEBSITE – PERSONAL NOTE

A booking page for your pool cleaning service — where homeowners can sign up for weekly or bi-weekly cleaning, choose their service tier, and set up automatic monthly billing — turns a route of clients into a fully automated recurring income business. I found it significantly easier to use Lovable — an AI site builder where you describe what you want and it builds a professional site in minutes. No coding. Check it out.

No trial. No refunds. All sales final. For serious operators only.

#### CARIBBEAN ISLAND FACT

Tobago has one of the oldest protected reefs in the Western Hemisphere — protected since 1776. Caribbean people have always understood that keeping water clean and healthy is a responsibility, not just a service. Your pool cleaning business carries that stewardship into every backyard you serve.
