Mobile Detailing Blueprint

Build a \$5,000–\$10,000/Month Mobile Car Detailing Business

- 1 Why Mobile Detailing Is One of the Best Service Businesses to Start**
No shop. No lease. No overhead. You go to the client — and Caribbean car culture fills your calendar.
- 2 Your Service Menu — From Basic Washes to Full Details**
Exterior wash, interior detail, full detail, paint correction, and ceramic coating
- 3 Equipment — Your Professional Mobile Setup**
What to buy, what to skip, and how to build a van setup that handles 4 jobs per day
- 4 Pricing — How to Charge \$75–\$500 Per Vehicle**
Package pricing, fleet accounts, and the monthly subscription that creates predictable income
- 5 Getting Clients — Caribbean Car Culture Is Your Market**
Where Caribbean car owners are and how to fill your calendar with premium clients
- 6 Scaling to a Multi-Van Detailing Business**
Second van, second technician, fleet contracts, and the income ceiling that keeps rising

INCOME BENCHMARKS

\$150–\$350 per full detail · 3 jobs/day = \$450–\$1,050 daily · Caribbean car culture runs deep · fleet accounts pay \$500–\$2,000/month · ceramic coating at \$500–\$1,500 per vehicle

Why Mobile Detailing Is One of the Best Service Businesses to Start

No shop. No lease. Caribbean car culture fills your calendar every week.

Mobile car detailing eliminates the single largest overhead cost in the traditional detailing business: the shop. No lease. No utilities. No commercial space. You put your equipment in a van or trailer, drive to the client's home or office, and deliver a professional detail in their driveway. The client never has to drive anywhere, wait in a waiting room, or arrange alternative transportation. That convenience commands a premium — and Caribbean car owners, who take exceptional pride in their vehicles, pay that premium without hesitation.

\$7,500/mo

5 days × 3 jobs × \$200 avg · Caribbean car owners spend more on vehicle appearance than almost any demographic · before-and-after photos fill the calendar automatically

Why Caribbean Car Culture Is Your Competitive Advantage

Caribbean car culture is one of the strongest in any diaspora community. A Caribbean professional who drives a clean, maintained vehicle is making a statement about their standards. A Caribbean man whose car is detailed inside and out on a Saturday is participating in a cultural tradition that stretches from the cars lining up in Kingston on a Sunday morning to the gleaming vehicles parked outside Caribbean restaurants in Brooklyn. That culture is your market. And the Caribbean car owner who finds a trusted detailer from their community does not shop for another one.

What makes mobile the right model

No shop overhead means your startup cost is \$500–\$1,500 instead of \$50,000+. A fully equipped professional van generates the same quality result as a fixed shop. Your clients pay more for the convenience of at-home service.

What drives premium pricing

Caribbean car owners invest in premium vehicles and want premium care. A Caribbean professional driving a BMW or Mercedes pays \$250 for a full detail without hesitation because they know what their car deserves — and they tell every other Caribbean car owner they know.

CARIBBEAN EARNER PRINCIPLE

Trinidad is home to one of the Caribbean's most celebrated car cultures — from the immaculate vehicles at Sunday lime spots to the chrome-finished cars at Carnival. Caribbean people treat their vehicles as extensions of their identity and their pride. When you detail a Caribbean client's car to perfection, you are respecting something they care deeply about. That respect generates the most loyal clients in any service business.

Your Service Menu — From Basic Washes to Full Details

Exterior wash, interior detail, full detail, paint correction, and ceramic coating.

Your service menu is your income architecture. Start with the services you can execute today and add premium services as your skills and equipment grow. Each tier up the service menu doubles or triples your revenue per vehicle without significantly increasing your time per job once you are skilled.

1**Exterior Hand Wash and Dry — Your Entry Service**

Hand wash, clay bar treatment, tire and wheel cleaning, windows, exterior dressing. Time: 45–60 minutes. Price: \$50–\$75. This is your hook service — Caribbean clients who book a wash and see the quality become full-detail clients within two visits. Never use an automatic brush wash on a client's vehicle. Caribbean car owners know the difference.

2**Interior Detail — Your Most Requested Service**

Full vacuum including seats and crevices, all interior surfaces wiped and conditioned, carpet shampooing, leather cleaning and conditioning, headliner cleaning, all glass cleaned inside. Time: 90–120 minutes. Price: \$100–\$175. Caribbean families with children — cheerios in the car seat, juice spills on the carpet, sand from the last beach trip — are your most grateful interior detail clients. The transformation is dramatic and the referral is immediate.

3**Full Detail — Exterior and Interior Combined**

Complete exterior wash and protection plus full interior detail as described above. Time: 3–4 hours. Price: \$175–\$350. This is your primary service and the one that generates the most repeat bookings. A full detail done correctly on a Caribbean professional's vehicle becomes a quarterly ritual — they book before they leave every time.

4

Paint Correction — Your Premium Upsell

Machine polishing to remove swirl marks, light scratches, and oxidation. Time: 4–8 hours depending on paint condition. Price: \$300–\$700 for a one-stage correction, \$500–\$1,200 for a two-stage. Paint correction requires a dual-action or rotary polisher (\$150–\$300), polish and pad selection knowledge, and practice on inexpensive vehicles before offering to clients. Add this service after 30 standard details — you will have the experience to execute it confidently.

5

Ceramic Coating — Your Highest Ticket Service

Ceramic coating applies a semi-permanent protective layer to a vehicle's paint that repels water, resists scratches, and maintains gloss for 2–5 years. A professional ceramic coating job — paint correction first, then coating application — charges \$500–\$1,500 depending on vehicle size and coating tier. Certification: take an online ceramic coating installer course (\$200–\$400) before offering this service. One ceramic job per week adds \$2,000–\$6,000/month to your revenue.

Equipment — Your Professional Mobile Setup

What to buy, what to skip, and how to build a van setup for 4 jobs per day.

Your equipment is your business. Do not cut corners — professional tools produce professional results and professional results generate premium pricing and referrals. Buy once, buy right.

Equipment	Brand/Type	Cost	Purpose
Dual-action polisher	Griots 21mm or Rupes	\$180–\$350	Paint correction and polish
Wet/dry vacuum (6 gallon)	Shop-Vac or Armor All	\$60–\$100	Interior vacuuming
Pressure washer (electric, 1,800 PSI)	Sun Joe or Ryobi	\$100–\$180	Pre-wash rinse
Water tank (35 gallon)	Poly tank	\$80–\$120	On-site water supply
Generator (2,000W)	Honda EU2200i or similar	\$400–\$600	Power supply
Foam cannon	Chemical Guys or Halo	\$30–\$50	Pre-soak foam wash
Microfiber towels (50-pack)	The Rag Company	\$50–\$80	All surface wiping
Detailing chemicals kit	Chemical Guys or Meguiar's	\$100–\$200	All-purpose bundle
Steamer	McCulloch MC1275	\$80–\$120	Interior sanitizing and detail
Van or truck	Used cargo van	\$8,000–\$20,000	Mobile platform
TOTAL (excl vehicle)		\$1,080–\$1,800	

START WITHOUT A VAN

You do not need a van on day one. Start with the detailing equipment loaded into your car trunk. Use a folding cart to transport supplies from car to client driveway. Your first 20 jobs — in clients' driveways using their outlet for your equipment — generate the \$3,000–\$5,000 you need to purchase or finance your first used cargo van. Buy the van from the business revenue, not from your savings.

Pricing — How to Charge \$75–\$500 Per Vehicle

Package pricing, fleet accounts, and the monthly subscription.

Mobile detailing pricing reflects the premium of at-home convenience plus the quality of professional results. Price confidently — Caribbean car owners who care enough to hire a mobile detailer are not shopping for the cheapest option. They are shopping for the most trustworthy professional who will do the job right on their driveway.

Service	Small Car	SUV/Truck	Luxury/Large
Exterior wash	\$50–\$65	\$65–\$80	\$80–\$100
Interior detail	\$100–\$130	\$130–\$160	\$160–\$200
Full detail	\$175–\$225	\$225–\$280	\$280–\$350
Paint correction (1-stage)	\$300–\$400	\$400–\$500	\$500–\$700
Ceramic coating (installed)	\$500–\$800	\$700–\$1,000	\$900–\$1,500
Monthly subscription (2x wash)	\$120–\$150	\$150–\$180	\$180–\$220
Fleet wash (per vehicle)	\$35–\$50	\$50–\$65	N/A

Fleet Accounts — Your Recurring Commercial Income

Caribbean car dealerships, Caribbean taxi and rideshare fleets, Caribbean limousine services, and corporate vehicle fleets need regular professional washing and detailing. A Caribbean car dealership with 40 vehicles on the lot pays \$35–\$50 per vehicle per wash — monthly washing contract at \$1,400–\$2,000/month. One fleet contract equals 8–10 retail detail clients in monthly income from a single business relationship.

Getting Clients — Caribbean Car Culture Is Your Market

Where Caribbean car owners are and how to fill your calendar with premium clients.

Caribbean car owners are your ideal clients — they invest in their vehicles, they pay for quality, and they refer aggressively. Your marketing strategy starts with the Caribbean community and expands outward once your reputation is established.

1**Before-and-After Photos — Your Primary Marketing Tool**

Every full detail produces a dramatic before-and-after transformation. A car covered in road grime, bird dropping stains, and water spots transformed into a gleaming, polished vehicle is one of the most compelling marketing photos available to any service business. Post before-and-afters in Caribbean Facebook groups and on Instagram after every job. Tag the location (neighborhood, not the client's address). Include your price and availability. These posts generate 5–10 direct booking inquiries per posting.

2**Caribbean Car Shows and Meetups — Your Highest-Density Audience**

Caribbean car shows, cruise nights, and community meetups concentrate your exact target client in one location. Set up a small display with your portfolio photos and business cards. Offer a discount for show day bookings. At a Caribbean car show with 200 vehicle owners, you are speaking to 200 people who already invest heavily in their vehicle's appearance. Your conversion rate at car shows is 3–5x higher than any other in-person marketing channel.

3**Caribbean Business Parking Lots — Fleet Prospect Prospecting**

Drive through Caribbean business parks, Caribbean restaurant districts, and Caribbean retail areas on weekday mornings. Identify businesses with multiple vehicles — delivery vans, service trucks, company cars. Walk in and pitch the fleet washing contract. 'I offer monthly fleet washing for Caribbean businesses — \$40 per vehicle, minimum 5 vehicles, one visit per month. Can I schedule a free first wash to show you what we do?'

YOUR BUSINESS WEBSITE — PERSONAL NOTE

A professional website converts prospects who find you online into paying clients without a single cold call. I found it significantly easier to use Lovable — an AI site builder where you describe what you want and it builds a professional site in minutes. No coding required.
caribstream.io/lovable

REMOTEOSPRO—RUN YOUR OPERATION

Remote OS Pro manages your daily detailing schedule, recurring fleet account visits, monthly subscription client billing, and job tracking — keeping a growing mobile detailing operation organized without a dispatcher or office manager. Client management, recurring service scheduling, automated reporting, and invoicing — all in one system. Setup fee \$297 · Software access \$1,999 · \$500/month. No trial. No refunds. All sales final.
caribstream.io/remoteOS-7X4k9mQ2

Scaling to a Multi-Van Detailing Business

Second van, second technician, fleet contracts, and a rising income ceiling.

One skilled detailer in one van generates \$5,000–\$8,000/month at full capacity — 3–4 jobs per day, 5 days per week. Two vans with trained technicians generate \$10,000–\$16,000/month. Three vans with fleet contracts generate \$18,000–\$28,000/month. The detailing business scales through people and vehicles, not through complex systems.

1	Your First Detailing Technician Train a detail-oriented Caribbean community member to your exact standards — your cleaning sequence, your product application methods, your client communication protocol. Pay \$18–\$22/hour or 35–40% of each job. Quality control: inspect every completed job for the first 90 days. A technician who produces your quality generates your income while you focus on sales, fleet contracts, and ceramic coating upsells.
2	Ceramic Coating Specialization — Your Highest Margin Service Once you are trained and certified in ceramic coating installation, offer it exclusively at a premium rate. A single ceramic coating job generates \$500–\$1,500 in 4–8 hours — equivalent to 3–5 standard full details. As your technicians handle standard details, you focus on paint correction and ceramic coating. This division of labor maximizes your hourly income from the highest-skill, highest-margin services.
3	Commercial Fleet Contracts — Your Income Floor Five fleet contracts at an average of \$1,000/month generate \$5,000/month in guaranteed recurring revenue before you book a single retail detail job. Fleet contracts are negotiated quarterly or annually, paid monthly in advance, and renewed automatically when you deliver consistent quality. A detailing business with strong fleet contracts can weather any seasonal slowdown without income disruption.

Scale	Setup	Monthly Revenue	Net (50% margin)
-------	-------	-----------------	------------------

Solo — retail focus	1 van	\$5,000–\$8,000	\$2,500–\$4,000
Solo + fleet accounts	1 van	\$7,000–\$10,000	\$3,500–\$5,000
2 vans + technician	2 vans	\$12,000–\$18,000	\$6,000–\$9,000
3 vans + fleet contracts	3 vans	\$20,000–\$30,000	\$10,000–\$15,000

CARIBBEAN EARNER PRINCIPLE

Jamaica's motto — Out of Many, One People — reflects a community that built its strength through connection and shared pride. The Caribbean professional who drives a gleaming, perfectly detailed vehicle is expressing that pride every day. Your mobile detailing business honors that expression. Detail every car like it is your own. Every satisfied Caribbean client becomes a walking advertisement for your standard.

Detail Every Car. Build the Route. Scale the Business.

Every Caribbean car owner in your community is a potential quarterly client. Every fleet business is a potential monthly account. Every ceramic coating installation is a premium job that pays more per hour than any other service in this business. Start with what you have. Detail with excellence. Let the referrals do the rest.

YOUR FIRST 30-DAY ACTION PLAN

Week 1 — Equipment and first jobs

Order your starter detailing kit. Post in Caribbean Facebook groups and on Instagram. Offer 3 discounted first jobs in exchange for before-and-after photo permission. Build your portfolio.

Week 2 — First paying bookings

Post before-and-afters from week 1. Target 5 paid retail bookings at full price. Ask every client for 1 referral and permission to post their vehicle photo.

Week 3 — Fleet prospecting

Visit 5 Caribbean businesses with company vehicles. Pitch monthly fleet washing. Target 2 signed fleet accounts by end of week 3.

Week 4 — Monthly subscription launch

Offer every existing client a monthly subscription package. Set up your booking page at caribstream.io/lovable. Begin saving toward your first used cargo van.
